

What is YOUR Problem?

Do you want to know which are the most suitable valves for best results in your present set?

Do you want advice on how to bring your existing battery receiver thoroughly up to date by adding Class "B" amplification?

ARE you floored by the problem of matching your loudspeaker to your output valve?

Is the selectivity problem troubling you?

Do you want help in converting your battery set for all-mains operation?

ARE you doubtful upon any point about re-valving with new, super-efficient valves?

HAVE you any technical problem whatsoever?

Then ask "T.S.D."—Mullard Technical Service Dept. *Please* give the fullest possible details of your set and of your problem, and address your envelope to:—T.S.D., reference V.G., Mullard Wireless Service Co., Ltd., Mullard House, Charing Cross Road, W.C.2.
